

FIRM BIO

WHAT WE DO:

HKA Elevator Consulting, Inc. specializes in the business of vertical and horizontal transportation consulting. As an elevator-consulting firm, our client base consists of architects, developers, building owners and managers, contractors and public agencies such as city, county, state and federal entities. Our firm assists in the development of people and material transportation systems for commercial offices, retail, hospitals, hotels, residential, parking facilities, museums, libraries, schools, correctional facilities, public transit facilities, merchandising marts and other institutional facilities. Additionally, the firm's expertise allows for expert witness services to be offered to attorneys and insurance companies.

As an independent firm made up of professionals drawn from throughout the elevator industry, our people have a broad range of experience and expertise in all phases of elevator consulting. We provide full services from schematic design through the final stages of construction and testing of the vertical transportation systems for both new buildings and the modernization of existing buildings. Our firm also provides maintenance evaluations and "remaining useful life" studies of existing systems. We are members of BOMA, IAEC, IREM, NAVTP and are QEI certified.

WHO WE ARE:

HKA Elevator Consulting, Inc. was established in 1999 as a result of the separation of the Northern and Southern offices of the San Francisco based firm of Hesselberg, Keesee & Associates which had been in existence since 1963 and has operated as a separate entity since that time.

The formation of the new separate company was initiated by Daryl Anderson, who was at the time President of Hesselberg, Keesee, as a means to better serve the Southern California and Pacific Southwest marketplace by providing not only technical expertise but provide a local presence to serve those Clients.

Daryl assumed the role of President of the new HKA and has continued to grow and develop the new organization which now has offices in Laguna Hills, CA and Las Vegas, NV. With the establishment of the additional office, the client base has expanded dramatically over the years and now includes major Architects, Developers and Property Managers throughout the US, Europe and the Middle East.

In 2009 Daryl transferred the day-to-day operational responsibilities to fellow principal John Reynolds who assumed the role of President while Daryl took an oversight role as CEO.
